

E-Yearbook Access Code Information

You have signed up and enabled e-yearbook access to your project. By using our dedicated site for e-yearbooks, LinkYearbooks, students can securely access their e-yearbook by using one of the ACCESS CODES assigned to your account.

In order to ensure the security and control over your yearbook, these unique access codes have been generated so we can track exactly who is viewing your book content online.

What are e-Yearbooks?

Entourage has created a new website called LinkYearbooks to enable easy and secure access to the digital versions of your yearbook. All Entourage accounts are allocated 1 free digital yearbook license for each physical yearbook they purchase.

E-Yearbooks make for a great addendum to your book, and allow digital access to your book content. Reasons may include if someone were to ever lose their book or would simply like to see what was in their book on the go. If you'd like to purchase more digital yearbook access codes, please contact us about pricing to get started.

Here's What to do Next:

- ✓ Hand out the Access Code information sheet that includes your e-yearbook publication date and access code
- ✓ Each code is active for one user account. You'll be able to track which access codes are used and not used on the Entourage website.
